Do's and Don'ts for Buying a Used Håg Capisco Chair:

Do:

Inspect the condition carefully: Check the seat, backrest, and base.

Popular Choice: Black is the most in-demand color for Capisco chairs.

See the chair in daylight: Avoid misleading pictures.
Request a video in daylight: See the chair's real condition and **avoid a bad purchase.**

Buy a newly cleaned chair or choose a chair with a new seat cover.

Don't:

Buy without seeing: Be wary of low-quality pictures.

Choose unpopular colors: Black is the easiest to resell.

Trust pictures blindly: Many pictures of used chairs are manipulated, and stains can be hard to see. Be critical and inspect the chair in daylight before buying.

Stains on a used Capisco chair can be a major problem. They are difficult to remove, and can make the chair feel dirty and worn out.
The solution is simple: Buy a newly cleaned chair or choose a chair with a new seat cover.
